

eVisitor Software Introduction

What it is:

- ✓ A robust yet easy-to-use visitor management system with cloud-based data storage.
- ✓ A Windows-based program that works on your staff's existing computer hardware, such as a desktop, laptop, or tablet.
- ✓ Ideal for any size organization. Available as single or multi-terminal systems.

How it works:

- 1 Sign in visitor with driver's license scanner (a) or reader (b)
- 2 Enter destination or other information with keyboard
- 3 Print badge in color or black and white
- 4 No driver's license?
Take a clear photo with the camera.
(See "High quality photos" on back page.)
- 5 Create reports

Computer hardware not included.

eVisitor Software Special Features

Track and limit visitors

Know how many visitors are in your building and where they are by:

- 1 The exact room a visitor asks to visit and who is there now
- 2 All rooms in your building and how many visitors are in each
- 3 The total number of visitors in your building

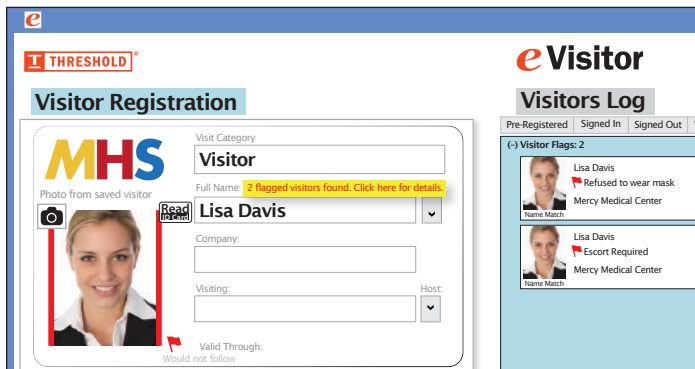

Contact tracing

- 4 Collect visitors' phone numbers or email addresses when they sign in.

Flag alerts

For returning visitors who were involved in prior incidents.

High quality photos

Visitor photos from eVisitor Software are automatically cropped and print clear and crisp for easy identification.

Multi-facility option

Link all your buildings to share BOLO (Be On Look Out) flags about troublesome visitors and create consolidated activity reports.

Custom dropdown menu

Categorize visitors however you want.
