Need a Confidential Sign-In or Sign-Out

Two-part carbonless forms perform two jobs in one step.

White first part contains a "blockout" pattern on all names to protect the confidentiality of those signing in or out.

Yellow second part provides an automatic duplicate record that lets **only you** see the names that are "blocked out" on the white first part.

Right side of the set is glued together as an additional **confidentiality** measure, protecting against peeking inside.
