

The New Look of eVisitor!

What you'll see right away:

1

A refreshed, easy-to-read interface with screen layout choices

-  **Compact View** is good for users who have multiple apps open on the screen
-  **Admin view** is for the system administrator and uses full screen reports
-  Choose **Default View** for side by side view; great for day to day tasks

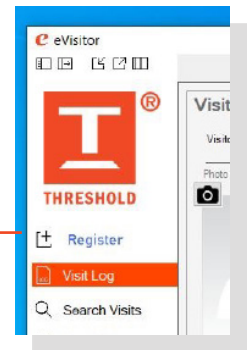

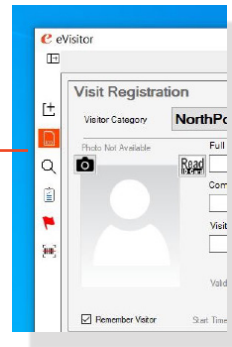

2

Clearer navigation for common tasks – the navigation buttons have been moved to the left side and can be hidden to save space or expanded to show full details

 Compact Side View Button

 Expanded Side View Button

3

Reports are now within the main screen instead of in a pop-up
