

# eVisitor Software Introduction

### What it is:

- ✓ A robust yet easy-to-use visitor management system with cloud-based data storage.
- ✓ A Windows-based program that works on your staff's existing computer hardware, such as a desktop, laptop, or tablet.
- ✓ Ideal for any size organization. Available as single or multi-terminal systems.

### How it works:

- 1 Sign in visitor with driver's license scanner (a) or reader (b), or (c)
- 2 Enter destination or other information with keyboard
- 3 Print badge in color or black and white
- 4 No driver's license? Take a clear photo with the camera. (See "High quality photos" on back page.)
- 5 Create reports

Shown: **Desktop** version.

Computer hardware not included.

**Kiosk** version for visitors to sign themselves in. Contact us for details.

# eVisitor Software Special Features

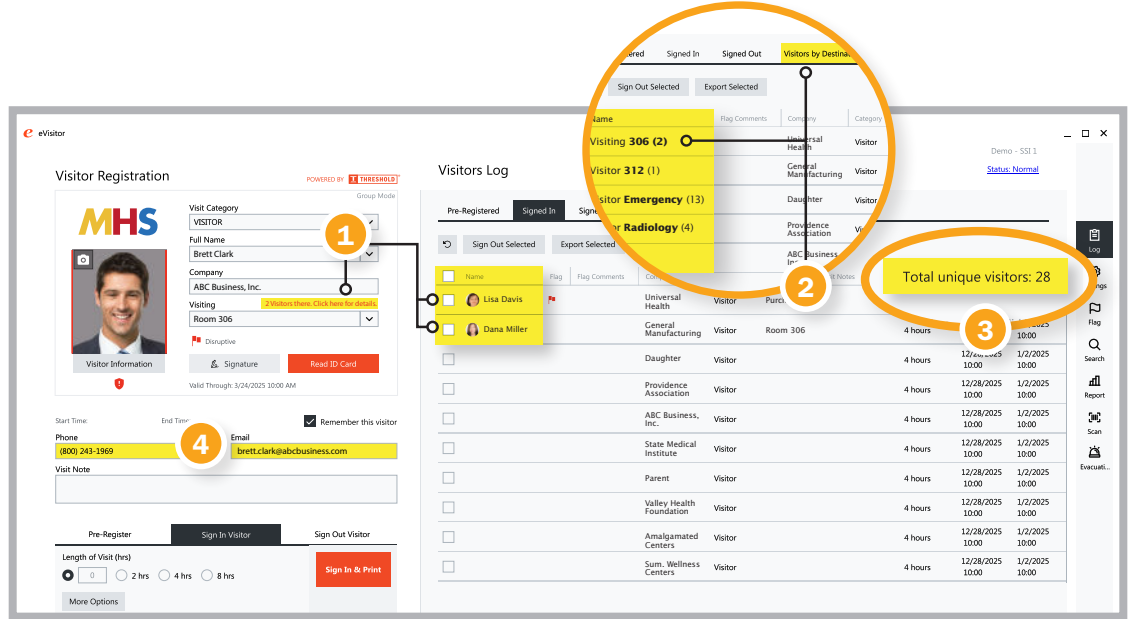

## Track and limit visitors

Know how many visitors are in your building and where they are by:

- 1 The exact room a visitor asks to visit and who is there now
- 2 All rooms in your building and how many visitors are in each
- 3 The total number of visitors in your building

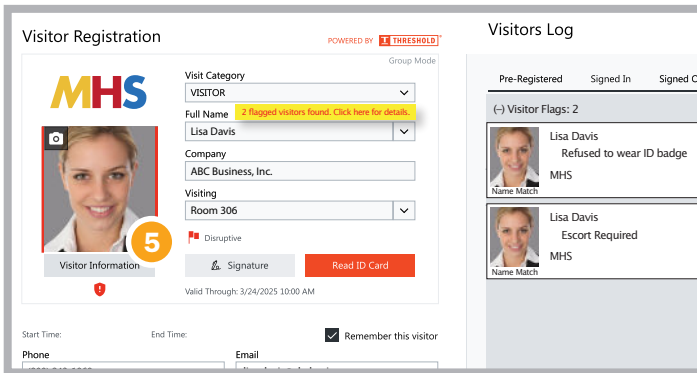

## Contact tracing

- 4 Collect visitors' phone numbers or email addresses when they sign in.

## Flag alerts

- 5 Flag alerts to mark visitors requiring attention. A Red Flag prevents badge from printing for added security.

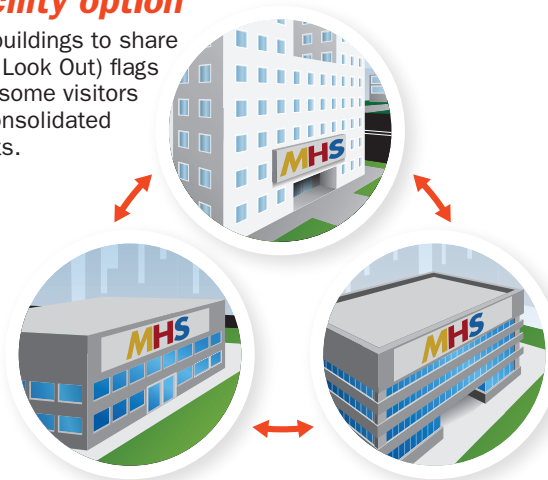

## High quality photos

Visitor photos from eVisitor Software are automatically cropped and print clear and crisp for easy identification.

## Multi-facility option

Link all your buildings to share BOLO (Be On Look Out) flags about troublesome visitors and create consolidated activity reports.

## Custom dropdown menu

Categorize visitors however you want.
