SECURITY YOU CAN SEE

Badges That Work the Way You Do

Every organization is unique—your badges should be too. At THRESHOLD, we specialize in creating custom visitor badges that align with your security protocols, operational flow, and visual identity requirements.

Why Customize?

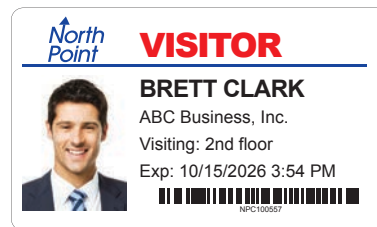

Clarity, Control, and Compliance

- **Identify at a glance:** Instantly distinguish visitors, vendors, and contractors.
- **Promote your brand:** Add your logo, facility name, and colors for a unified, professional look.
- **Meet your goals:** Whether it's HIPAA compliance, school safety, or facility management, custom badges support your specific policies.
- **Streamline operations:** Eliminate confusion and speed up entry processes with badges that fit how you operate.

Why Expiring?

Our badges include expiration features a red “VOID” warning that appears overnight. This feature prevents badge reuse and ensures visitors don't overstay their welcome.

Visual expiration = Less risk, more peace of mind.
